

Character Design Basics - Sonas With Character

Schedule: March 6th,
19:30 - 20:00 (CET)

Whether you're an experienced or aspiring furry artist, being able to show your character's background and personality in images is extremely useful. Professional illustrator and experienced roleplayer Schiraki is going to hold a panel teaching precisely this.

During the panel an example fursona will be used to design two example characters, and Schiraki will be demonstrating how backstory can be told using body language, clothing and accessories, and other visual elements.

Schiraki is a returning visitor, having participated in the art show of NFC2018, but this is the first time we'll get to share in her extensive knowledge, so be sure to grab a (virtual) seat in time! (Mickel)

Round Robin Drawing With Special Guests

Schedule: March 5th, 20:10 - 21:00 (CET)

Being at home, most of us miss the allure and adventure of travel. Instead, we are offering you the chance to travel virtually into other people's sitting rooms and studios as we beam live images from all corners of Europe into yours!

We are delighted to welcome back the popular PointedFox, the extraordinary EosFoxx and (because nobody draws rounder robins than he) Kékéflipnote.

We are asking the three former Guests of Honour to each draw part of a figure - head, torso and legs - which will then be stitched together to make one creature. Whether or not it will be an unholy abomination is yet to be seen.

During this hour-long event, a number of exciting images will be creatively brought to (horrible, excruciating) life. (Nostradamus)

Charity: Live Tour of Odsherred Rescue Zoo

Meet
the Charity
10:30 & 17:30

Schedule: March 6th, 12:30 - 14:30 (CET)

Even though the whole world feels like it might have stopped over the last year with lockdowns and cancelled conventions, there are animals that still need to be cared for. With restrictions on admitting visitors and an uncertain economy, things are even harder than before for organizations working to help animals. And even though there will be no physical NordicFuzzCon this year, that does not mean that we won't support a charity!

NFC@Home is proud to have Odsherred Zoo Rescue in Denmark as its charity this year. The Zoo Rescue is home to 600 animals from 100 different species, both exotic and local. Over the years, the park outside Asnæs has rescued birds, primates, reptiles, llamas, and many, many more.

On Saturday you can get a virtual tour of the Zoo Rescue, live-streamed straight into your living room or comfy den. Come join the fun and exciting tour! (Jacy)

Charity: Animal Feeding & Enrichment Centre

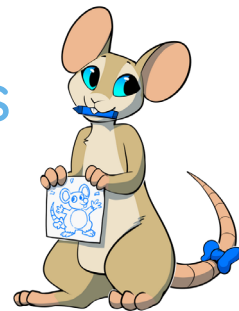

Schedule: March 7th, 14:00 - 15:00 (CET)

Both for humans and animals, food is vital to our well being both mentally and physically. The food has to be adapted to each species. A large carnivore has different needs than a small herbivore, and in this stream you will get to see both. Join us as we take a virtual walk with Niko to feed the animals.

To make life fun and interesting, animals in captivity also need enrichment, fun little activities to fill their days. This often revolves around food, what would you do for a snack? Come see what all these delightful animals do to get theirs.

Be warned, some carnivores have a preference for creatures that are cute and fluffy. (Leophan)

Doodles for Charity

**Schedule: March 7th,
15:00 - 16:00 (CET)**

This Sunday you will get the chance to both help our charity and get some cool art at NFC@Home's "Doodles for Charity" event. For a small fee, skilled artists will do quick sketches, and all the money will go toward caring for the animals at Odsherred Zoo Rescue in Denmark.

Come get a sketch of your fursona, friend, beloved pet, or favourite enemy. The number of slots for sketches will be limited, so don't delay visiting "Doodles for Charity" on the NFC@Home Discord. Get art, help animals! (Jacy) *Illustration by Neotheta*

NFC@Home Opening
March 5th, 20:00 - 20:10

Live Acoustic Set
March 6th, 18:30 - 19:30

Q&A Stream With Pointedfox
March 6th, 22:00 - 23:00
