Hello everyone! Thanks for coming!
Wait, it's been only a year since the last NordicFuzzCon? It feels like much longer since I last got to see everyone! Hey, remember 2014, at the Quality Hotel Winn Haninge? Great times. I dream about those days. Although I don't remember the bit where I got kidnapped by weasels, did that really happen?

But we're really excited for this year though. Utsikten Meetings in Nynäshamn is a bigger home, there's just so many of you who want to come, and they'll be as new to us as we are to them, so be gentle, and let's all get along!

All of those really fun staff and crew people have been running around crazily getting everything set up for this wonderful weekend. I thought, what can I add to help things be a success?

So I decided what I would do is get together all the different varieties of cheese from all over the world! Because I thought of all of the furies coming together from all over the world, and that's really great, and I wanted to do it with cheese.

It took me most of the year, and I had to go on cars and planes and boats and trains and pogo sticks and the **Fuzz Bus™** and finally I had about 20 types of cheese, which is pretty much all of them, isn't it?

And then something really weird happened! I was minding my own business being innocent when suddenly an identical copy of me stepped out of the spirit world and ate all the cheese! He was exactly the same as me, so if you did see someone eating all the cheese, who happened to look and squeak like me, that would be why.

But that's okay, because we still have the memories, don't we? Let's make more wonderful memories this year at NordicFuzzCon 2015!

Our Charity: Hittehund

Relocation with Care

At past conventions we have given our help both to pet kitties and wild animals. So this year it seemed only right we extend our help to man's (and woman's) best friend, the dog!

With that, NordicFuzzCon proudly presents our charity for 2015: *Hittehund*.

Hittehund is a small organisation, helping dogs in need to move to new homes. They also follow up on the dogs they relocate, keeping an eye on how they are doing in their new lives.

The dogs that arrive at Hittehund have very different backgrounds. Some have been abused, some have come from owners who cannot keep them any longer, others are feral and homeless dogs. But they all do have one thing in common, they need help.

Hittehund consists of a network of private individuals who volunteer their time to help the dogs. They do not have a dog shelter, or the ambitions to have one. Instead, they use their own homes, or foster homes if needed. Where appropriate Hittehund will also support a dog in their current home, so the dogs will not need to get moved unnecessarily.

Hittehund's unpaid volunteers dedicate a lot of time to helping dogs in need. Lots of love and care goes into making sure the dogs are healthy, happy, and ready for their new home.

The organisation survives on donations and private funds from their volunteers, as well as any profits from helping dogs to relocate. But they could really use a helping hand – or paw.

In fact, they need *OUR* helping paws, so please help us to make a difference!

How can you help?

- Donate an item or commission for the charity lottery.
- Buy lottery tickets in the Dealers Den.
- Bid on art with 100% for charity in the Art Show.
- Donate to the collecting charity fursuiters at the convention.
- Meet the Hittehund volunteers at their table in the Dealers Den.
- Come to the *Meet the Charity* event, and hear about the amazing work they do. Here you can also find out about other ways to help them. For example, you can donate canine accessories, become a volunteer or – if the match is right – even give one of their dogs a new and wonderful home. If this is something you would be interested in, please contact the representative from Hittehund during the event.
- Finally, you can also go on their web page below, and donate there.

You can read more about Hittehund on their web page: <http://hittehund.nu> (Site only available in Swedish, sorry!). Below are some of the dogs waiting for a good home.

SATURDAY (28 / 2) MAIN STAGE 18:00 - 19:30

Guests of Honour: EosFoxx and EZwolf

EosFoxx: 3D animator, artist, dancer, fursuiter.

EZwolf: filmmaker, fursuiter, photographer.

Could you tell us a little bit about yourself?

EosFoxx: I'm a tiny catvixen living somewhere in a den in Germany. As soon as I found some crayons in some backyard, I started to draw all over our den. Mama fox was not so amused, but when I grew older and still had my tail all covered in colours she was okay with it. I went to several schools and then went to study with unicorns (they called the building UNI-versity). They introduced me to new media and I learned to use 3D programs. (Of course I could use the programs better with my paws than the unicorns could with their hoofs.) At the moment I work in the games industry as a 3D animator. They think I'm human though; must be the kitsune magic!

EZwolf: Sometimes life does not go according to all your carefully laid out. In 1991, I accidentally stumbled into a life of professional photography and have been making my living in this field ever since. After a few years of working as a commercial photographer I started to realize that my life and work were becoming very stale. So in 2000 I started working on more personal and artistic projects next to my commercial work. These projects slowly caught the attention of art lovers, and before I knew it my work was being shown in art galleries, exhibitions and published in dozens of international magazines. I found out that for me photography shouldn't just be a profession but it should really be a way to express my feelings, my desires, and the artistic thoughts that meandered in my mind. Then in 2011 I produced Bitter Lake together with a small group of very talented and creative people.

EZwolf: Because animals were depicted in most of my artistic photographs, I dug around the internet for more information on anthropomorphism, and in 2003 I accidentally stumbled onto the furry fandom. I did not immediately take a fancy to the fandom though. I could understand that people loved animals and anthropomorphism, but then go so far as to wear animal costumes and bounce around in them? That was a little bizarre for my tastes. I didn't think much of it, but in 2006 I really wanted to use a realistic Minotaur for a project, and after looking at all the fursuits – both realistic and toony – the whole concept of fursuiting started to fascinate me. Who would have guessed that now, 11 years after I bumped into the fandom, I own three fursuits and enjoy fursuiting very much!

Ever been to NFC before? Looking forward to anything while you're here?

EosFoxx: First time! I'm looking forward to meeting people I have never met at other conventions, and to spend some time in Sweden afterwards.

EZwolf: In 2014 I attended NFC for the first time and I instantly loved the relaxed atmosphere. I met a lot of new people and made some great new friends. I think that for a medium large con it's very well organized and after the first day I decided to return in 2015, before I'd even been invited to be a Guest of Honour!

Is there anything else you'd like to say to our attendees?

EosFoxx: Have a great time at NFC and party on! We are different – time to celebrate it!

EZwolf: If you happen to see me wandering around the convention, feel free to say hi and have a chat. I can tell you lots of things about photography, posing and acting in fursuit, and all the silly things that happened during the making of Bitter Lake and other furry videos. But that is probably best shared over a nice cold beer or a good glass of red wine!

EosFoxx (left) and EZwolf (right)

How did you find out about furry? What do you like most about the fandom?

EosFoxx: I found out about the furry fandom in 2003 when I was searching the internet for fox pictures and the TV series The Animals of Farthing Wood (that fox is sooo coool). I found artists and people who talked about foxes, and animal comics and animal films, and it went from there.

LIFE AS THE CHAIRMAN OF A

CONVENTION

By Matthew "Matt Lion" Hood

There have been many occasions when people have asked me: "What's it like running a Furry Convention?" and I've never really had the time to give them a proper answer to this question. So, when NordicFuzzCon asked me if I would like to write an article for their conbook on working for a furry convention, I thought this would be a fantastic opportunity to share some of my thoughts and feelings.

By way of introduction, perhaps I should first tell you a little more about myself and how I got to where I am today. I first stumbled across the fandom way back around 2000 when I first got access to the internet at my parents' house – nothing but the best 56kbit/s dialup connection back then – before the days of Fur Affinity or Second Life. I spent most of the time hanging out on Furcadia, or browsing sites such as VCL and Furrnation, and eventually discovered IRC as a means of getting to know more people who shared in my new-found interest.

Websites, people and chat services have come and gone over the years, but there is one thing about this community which has persevered throughout – and is what drew my attention in the first place: the sheer passion and level of creativity which our fellow Furies demonstrate on a daily basis through artwork, story writing, music, costume making, performances, and many other amazing talents. I wish it were possible to list all the fantastic things I have seen during my time in the fandom, but yet there is always something even more spectacular to be seen tomorrow.

Way back in early 2007, I was approached by a good friend who was starting up an exciting venture named ConFuzzled, which was destined to bring the wonders of a furry convention to Manchester in the United Kingdom. After some discussions, I was invited to join the Convention Operations (ConOps) team to take responsibility for First Aid and various safety related aspects of the convention. I found this to be an immensely gratifying role to play, providing behind-the-scenes input and assistance, and ensuring our attendees had an enjoyable – and safe – time at the convention.

ConFuzzled grew rapidly, outgrowing our first venue in two very short years, and we soon moved to a new location in Manchester. Sadly, during this move the Chairman at the time decided to retire from his position in the convention. At that point I was mid-way through studying for a Doctorate in chemistry, and – after deciding that I didn't have enough work to be doing already – put myself forward as a candidate to be the new Chairman and was subsequently elected to take up the role.

Six years later, ConFuzzled is jumping from strength to strength, we are now moving into our second year in our fourth venue, the Birmingham Hilton Metropole Hotel. At the time of writing, have just crossed over the 1,000 registration mark two months earlier than in 2014. I'd love to tell you all that it's all been perfectly plain sailing between when I picked up the reins and getting to where we are today, but as with most things of this nature there's been quite a few trials and tribulations to overcome.

Being the Chairman of a furry convention is something which I didn't think a huge lot about when I took up the role - I'd seen our previous Chairman working before but never been quite aware of how much there is to be done. I quickly learned that it's almost like having a second full-time job on top of my 'day job' that pays the rent and bills. It's very easy to spend nearly every weekday evening and most of the weekend working on things for the convention, sometimes to the extreme frustration of my very understanding and tolerant partner.

However, putting in this time and effort is not something limited to just the Chairman and Directors of a convention - all the staff are extremely dedicated individuals who work very hard in their free time (mostly outside their regular day job) for the convention. It amazes me sometimes that people are willing to work for what amounts to a second job without receiving a single penny in payment. This has led to some interesting conversations with venue staff who've asked how much the staff are paid, or how much profit the convention makes – most of them are genuinely very surprised when they find out that conventions are organised by non-profit organisations. Of course, being paid is not what staffing a convention is about; it's not something we do for money, or recognition, or fame. It's something we do because we want to see everyone having a really great time, to bring all our friends (and all their friends, and so on) together in a place where we can celebrate all the wonders that make the Furry Fandom what it is in an environment that enables everyone to feel safe in expressing themselves as a Furry.

The hardest part of chairing a convention is often not dealing with venues, suppliers, business partners or the media, but actually having to deal with myriad potential interpersonal issues between members of staff who don't see eye to eye. Because conventions are staffed by volunteers, it can be a massive challenge to find the people with the right skill sets which are required in order to perform all the functions needed for a successful event. This can lead to tensions between staff members or those outside the convention, and often requires significant skills of diplomacy to handle these conflicts.

There is one thing which I fear the most about being Chairman of ConFuzzled, which is that each year, my... wonderful staff push me out from behind a curtain onto the main stage in front of around 1,000 attendees. I am absolutely terrified of public speaking and to be thrust out in front of this many people is a huge challenge for me every year.

These things aside, there is something simply wonderful about being at the convention, surrounded by so many people who are having a fantastic time – walking through the hotel corridors and seeing people smiling, laughing and fursuited, people trading in the Dealers Den or bidding in the Charity Art Auction – makes me feel absolutely wonderful that I played a part in bringing all these people together. Not only this, working closely with the entire staff every year soon means that there's a lot more than just a group of people working like a business, but eventually it becomes a lot more. A group of people working in unison towards a common goal; the best way I can come close to describing it is that it's like being a big family.

The bottom line that this all comes down to is that working for or helping out at a Furry Convention is an immensely positive way to give something back to the community. Every convention is always looking for people to help bolster their staff ranks, so if you're interested, reach out to your local one and see what roles they might have available. I'll never regret my decision to get involved with a convention and I hope that you won't either.

PS: I got my PhD in the end.

Lanyard Colour Chart

When signing in at the convention, all attendees are given their convention badge as well as a fancy lanyard to go with it. But the colours of the lanyard will vary. Please consult the chart below to see what the different colours mean.

GREEN – Residential attendees.

The most common lanyards. For those who are staying at the official convention hotel.

BLUE – Attending only.

Those without a room at the official hotel. Where these attendees are sleeping, no one knows. Some speculate that they actually never sleep.

LIGHT BLUE – Single Day.

Attendees who will miss out on most of the fun by only attending for a single day.

RED – Staff.

The hard working folks behind the convention. If you have any inquiries, they are always happy to help.

GREY – Crew.

Like staff, except with fewer responsibilities if anything explodes.

BLACK – Security.

Has a fursuiter caught fire? Have non-attendees wandered onto the premises? Are we being invaded by an army of cybernetic Dalecarlian horses? These are the folks to inform.

DARK GREEN – Medic.

After the security has extinguished the burning fursuiter, we have our medics to patch them back up again.

ORANGE – Guest of Honour.

The most prestigious lanyards, which this year are carried by EosFoxx and EZwolf.

Convention Rules

Before you run off and have fun at the convention, we ask that you familiarize yourself with the following rules.

Show that you have a valid registration, wear your conbadge visible at all times!

Please respect other attendees and their privacy. Stop means stop!

Everything shown in public areas has to fit a general audience. That goes for artwork, clothing and costumes.

Smoking is not permitted anywhere inside the building (including e-cigarettes)

Remember to drink responsibly!

The consumption of food or drinks purchased from outside of the hotel is only permitted in your private hotel room.

All weapons, replicas, tools, toys and mock fights must be approved by the Chief of Security.

You agree that videos and pictures taken of you can be used in non-profit publications without release or compensation.

Photographing in the Dealers Den is prohibited. Cameras are not permitted at all in the Art Show.

This is a short version of the Rules of Conduct you agreed to during the registration process. Please be aware that this overview does not cover all rules and that all decisions will be based on the full rules as given on our webpage: <https://nordicfuzzcon.org/About/Policies>

Failure to comply with these rules may result in a stern talking to (in less severe cases), expulsion from the convention and the hotel grounds (in severe cases), or being reported to the official authorities (in very severe cases).

The Fuzz Bus™

Do you want to take it easy and travel in style between our hotel Utsikten Meetings and Stockholm Central Station? Or are you coming in from Arlanda airport and you want a comfortable, hassle-free trip to and from there? Then the Fuzz Bus™ may be just what you're looking for! In fact, some of you have already experienced the fuzzy splendors of the Fuzz Bus™ as it has brought you to the hotel where you have received the very book on which you read this text right now. Yes, you!

The Fuzz Bus™ will depart once on the last day of the convention (Sunday) and once on the late departure day (Monday). The Fuzz Bus™ will pick you up directly from the front door of the hotel, travel on to Stockholm Central, and from there go to Arlanda Airport.

No need to find alternative routes or try to navigate through any scary Swedish road obstacles on the way, our Fuzz Bus™ driver does that for you! You will not have to carry your heavy luggage to the train station nor change trains/buses/boats/pogo sticks/whatever, but simply sit back, relax, and enjoy the ride with your fellow furs.

The price for a single Fuzz Bus™ fare is 125 SEK. This is the same price as from the airport to the hotel with the commuter train; the difference is the company and style in which you travel.

If you have not pre-ordered a ticket by now, you will have to buy one on the Fuzz Bus™. But please note that tickets for the Fuzz Bus™ are limited and may be sold out. For current availability, please see the following URL:

Exploring Nynäshamn

So, never been to Nynäshamn (New Isthmus Harbor) before? Well, neither have many people who are native to Stockholm as well, so we hope this is a useful guide for a majority of you.

Food

So, what is there to eat outside of our magnificent hotel? First, we have the restaurants down by the main road. On the way to the hotel, you probably saw a small shopping centre with some restaurants. There you can find Thai, Pizza, and Indian. Also, down by the petrol station, there is an old fashioned grill - if arriving by train, it's the first place to eat that you will see. When eating out in Sweden allergies are not unexpected, so most restaurants bigger than a hole-in-the-wall grill can cater to most things. Of course, if you are severely allergic to peanuts, then the Thai place might not be the best option. Saying that, they are not paid to poison you. Let us know how it went!

For groceries, behind the hotel and down the hill, there is a large supermarket called Coop Extra. It should be able to supply you with everything you need. Grocery stores also stock low alcoholic beverages - no more than 3.5%, by law - as well as some usual painkillers and cough medication.

Drinks

The closest bar is in the hotel. You may think the prices are outrageous, to which we say: welcome to alcohol in Sweden. They will probably not be lower at the local Bar and Burger, which is a little way further on the main restaurant road. Directly opposite to it is an ATM, if you want money - but most places in Sweden will accept major credit cards for anything. Stores here are used to chip and PIN, but they do accept signatures also.

A cheaper way is to buy some alcohol and discretely bring it to your own room. That requires a 20 minute trip and plenty of planning, since in Sweden alcohol sales are strongly regulated. Most alcohol is sold by a store called “Systembolaget”, which isn't allowed to be open when people tend to drink. The nearest store is in downtown Nynäshamn, most easily accessed by going towards the train stop and then taking left at the roundabout, down Centralgatan. When you come to a parking lot to your left it is the store on the other side of the lot; big green sign with yellow letters. It should be open till 19:00 on Thursday and Friday, and 15:00 on Saturday.

Downtown

Downtown near the Systembolaget, there are other restaurants, and also the local health care clinic in case that's needed. A pharmacy is located closer to the restaurants. Just remember that Swedish medication is usually considered very weak. Also, the brands do not carry the same name as in other countries, but you can find out how to get the required active ingredient with some clever searching online (Wikipedia and FASS).

Directions

If you need more help and directions, don't be afraid to ask convention staff, or the hotel reception (they probably know the local area best!)

Fursuit Lounge

We know that fursuiting is a strenuous activity, and overheating and dehydration are real health risks. Our **Fursuit Lounge** is a safe haven for fursuiters to rest between and after costuming sessions; a place where they can take off their heads, paws, and bodies away from spectators. The lounge can be found in the **Shapeshifters' Hideout**, next to the Crystal Pond (photoshoot room) in one of the side wings of the hotel.

In the lounge, simple refreshments are provided to fend off dehydration and exhaustion. Large fans keep the room and everyone in it at a nice, cool temperature. The airflow also helps fursuits dry quicker, and a special air-blowing rack is also available, for drying fursuit heads and paws.

For your convenience, fursuits can be temporarily stored in the fursuit lounge when not in use, and there are dedicated racks where bodysuits can be hung up to dry overnight. This can be particularly useful for attendees without access to a hotel room. Note that all storage is at your own risk.

Our fursuit lounge is open all day and night during the convention, from 16:00 on Wednesday February 25th until the Dead Dog party closes at 02:00 Monday March 2nd.

Rules of the Lounge

- This area is for **fursuiters** and their accompanying helpers only!
- **Do not take pictures** or record video in the lounge.
- Storage is at your own risk! Neither the convention nor its staff/crew are responsible for any damaged, lost, or stolen property.
- Our refreshments are for fursuiters only. Please do not consume these if you are not fursuiting.
- Be mindful of other people and their belongings.
- No pets in the lounge, please.
- No alcohol in the lounge.
- Do not remove fans, sprays, or other convention property from the lounge.
- Convention staff/crew reserves the right to move items, for instance taking dry fursuit parts from driers to make space for people waiting in line.

If you have any questions or concerns, please contact our friendly staff!

Fursuit malfunction? No problem!
The fursuit lounge has a simple repair station set up for quick fursuit fixes. Please ask a staff if you wish to borrow a glue gun!

HOTEL INFORMATION

Dinner Buffet

The fabulous dinner buffet is served in the Berry Grove every evening. This includes early arrival on Wednesday, right up to Sunday.

Dinner will be served from 17:00 to 21:00. If you have pre-bought meal tickets during registration, then you can use those here. If you don't believe in a token-based economic system, you can pay with real money instead (150 SEK). Break bread with your comrades, and eat your fill while you can, for the evening is long and full of many things to enjoy.

Breakfast Buffet

Breakfast is served as a buffet in the Berry Grove as well, and is free for all guests at the hotel. For non-residential attendees, access to the breakfast buffet will cost 125 SEK. Breakfast service runs from 08:00 to 11:00. Make sure you do not oversleep, since if you're staying at our hotel your breakfast is already paid for. NordicFuzzCon recommends you have at least two square meals each day.

If you're having lots of fun during the early hours then you might want to grab breakfast before you go to bed, and here NordicFuzzCon recommends you have at least six hours of sleep each day. Don't worry, we have a recommendation for everything!

Bar

If you require something a bit stronger than the feeling of sheer unbridled joy you get from a furry convention in full swing, the bar downstairs will be happy to dispense alcohol to you. Drinks will not be served after the sixth strike of the glass beyond the middle watch – that's 03:00, for people not familiar with traditional nautical measures of time, which is pretty much everyone.

Sauna & Gym

On the other hand, if you wish for some relaxation, the sauna is open from 20:00 until midnight, Thursday to Sunday. If you get hold of the Northern collie (Fredrix) and charm him adequately, then he might be able to arrange some other time for you and your very dependable comrades. His anger shall strike you sevenfold if you fail at leaving the facilities in better working order than you found it.

If you don't feel that running around the convention is quite exerting enough, there is also an exercise room available for you. Here you can lift heavy things and put them back down where they were, or you can travel by foot or bike in a never-ending struggle to go nowhere. Please do take good care of the gym while you are using it. You never know, the gym may repay the favour some day.

Wi-Fi

The spirits sing in the Wi-Fi available throughout the hotel. To connect, listen for the open Utsikten Meetings network. No sacrifices of any kind are required to appease the Wi-Fi gods, though please be gentle with your usage – remember that hundreds of other furries are using the network as well.

Beware of Dogs

Our charity, Hittehund, has been allowed to have their dogs at the End of the Rainbow (Dealers Den) and around Ting's Place (Large Panel Room). If you have allergies or phobias, then do take care around these areas.

Checking Out

On the day you depart, you will need to check-out and have the room clear by 13:00. Or, you can pay a fee of 450 riksdaler (450 SEK) to keep your room until 17:00. If you haven't checked out by then, you will be charged for another full day. Sadly, you can't make NFC last forever using this method, although rumor has it that a couple of furs are still at last year's hotel...

DEALERS DEN & ART SHOW

Opening hours: Early Access (Friday) 10:00 - 10:30,

Friday 10:30 – 16:00, Saturday 10:00 – 15:30

Live auction: Saturday 20:30 – 22:00

Prints, commissions, comics, fursuit essentials, and more! The Dealers Den is the place to be if you're looking to get your paws on some nifty furry merchandise. The Dealers Den can be found in the End of the Rainbow room.

The standard currency in the Dealers Den is the Swedish kronor (SEK), and it would be well worth having SEKs while you're in Sweden. But, it is up to the specific dealer whether they will accept other currencies as well.

PRO TIP: Don't yet have a badge of your fursona? Fancy one? Why not try your luck in the Dealers Den! Some artists are willing to take on overnight badge commissions.

In the Huldra's Temptation rooms you will find the Art Show, our gallery of furry art. Here you can see art pieces by furry artists, and if you would like to buy one, you can also place bids on them. By doing so, you are taking part in the silent auction, where highest bid wins!

To Dealers & Artists:
Please see the Events schedule for the times for Dealers Den setup and Art Show submissions.

If an item gets enough bids in this silent auction, it will go to the Live Auction which takes place on Saturday evening in the Hall of the Mountain King. Here you have a final chance to win your prize, or see who makes off with the coveted treasure. Good luck!

To Bidders:
Did you win something from the Art Show or the Live Auction? Don't forget to pick up your items! Please see the Events schedule for the times for Art Pickup on Sunday – one for those leaving the same day and one for those with late departure.

Lär Mig Svenska (Teach Me Swedish)

I did okay with hund och katt
 En mus, en anka, as easy as that!
 Kock is cook and frukt is fruit
 And we'll have a laugh at a sudden slut

With din or sin, or det or dess
 Jag got tangled i en fine old mess
 Kvinnens äpplen? Ni älskar en mus?
 Vårt kycklingar är utanför mannens hus?

Then came letters and numbers to know
 En, två, tre, right up to tjugo
 Ok so far, but here comes mitt
 And min? Mina? Mig? Oh holy kitt.

My poor brain mixed all the words into one
 And now my Swedish knowledge is gone
 But there is one sentence I'd like to pick:
 Jag skulle vilja ha en dryck. <3

Leave a small sacrifice for the vetter and tusser upon the stone, when you travel in the forest. Beware of trolls, hulder and wisps that may carry you astray. Remember to leave out porridge for the nisse living in the barn. Some of us still celebrate and believe in the old ways - do you? Come and listen and I will tell you of our own pagan heritage and the ways of old that still live on.

What is a furry? What does it mean to be a furry? Why am I a furry? The answers may be as many as there are furrries, and the reasons vary greatly. For some, it is a fun place to be, to meet interesting people, while for others it runs a lot deeper. Share your feelings on what furry means to you, and hear what it means to others.

Classical Scandinavian school of barbeque, directly over open coal, eating in the great outdoors, or well, at least in the back yard. Both meat and vegetarian alternatives, most of them with risk for stains. This and smoke means that fursuiters appear at their own risk. The hotel has supplied us with a completely new brick barbecue that we have the pleasure of being among the first to try out, under the steady hand of their skilled personnel.
