

Door Sign Award by Leophan & Zander Noxquill

Traditions die hard, and although the way we conduct it has changed, the door sign award is still going strong. We here at WtF have taken a look at all the entries posted to Bluesky with the hashtag #NFCDoorSignAward and have once again feel blown away by the creativity and talent. Here we present to you this years runner ups, an honorable mention, and the big winner!

Here's a couple of runner ups:

Dee & Azshara

Tokiiru & KrymsonK

And the winner of the Door Sign Award 2025: Jules & Wink's beautifully calm scene that perfectly captures the spirit of Zen Garden!

The master of tasks by Rexam

Due to unforeseen circumstances, not all planned content could make it into today's paper which is why we have no article covering the Taskmaster event.

Congratulations to the winner, **Vulturecorpse!**

Meet the Charity by Jacy

In the history of NordicFuzzCon, the charity organisation we have cooperated with has so far been from Sweden, Denmark and Ukraine. This year adds another Nordic country to the list. Iceland! All the way from the island in the North Atlantic comes Dýrahjálp (Animal Help in English). Their mission is to provide shelter to animals without homes until they can find them new permanent homes. Since its founding in 2008, the organization has helped 8 709 animals in their search for a new home.

The organization is very serious about staying independent so that it can help animals in all situations. Therefore they receive none or very limited government funding.

As of writing this, the amount donated has passed 215 000 SEK. Can we reach 300 000 or more? Yes we can! We are furies, we are NordicFuzzCon, we help!

You can still donate!
Scan the QR-code with
your phone or go to
